Social Studies of Science

**An International Review of Research in the Social
Dimensions of Science and Technology**

Editor David Edge University of Edinburgh
Co-Editor Roy MacLeod University of Sydney

Social Studies of Science is devoted mainly to the results of original research, whether empirical or theoretical, which bring fresh light to bear on the concepts, processes, mediations and consequences of modern natural science and technology. It is multi-disciplinary in the sense that it encourages appropriate contributions from political science, sociology, economics, history, philosophy, psychology, social anthropology, and the legal and educational disciplines. It welcomes studies of fundamental research, applied research and development; of university science, industrial science and science in government; of all aspects of technological innovation, and from all countries.

Social Studies of Science is published quarterly in February, May, August, and November.

Subscription Rates, 1987 (Volume 17, Numbers 1-4)

	<i>Institutional</i>	<i>Individual</i>
<i>one year</i>	£65.00	£26.00
<i>two years</i>	£129.00	£52.00

Social Science **INFORMATION** **sur les sciences sociales**

Published under the Auspices of the
International Social Science Council

Director **Clemens Heller**

Editors **Elina Almasy and Anne Rocha-Perazzo** *Maison
des Sciences de l'Homme, Paris, France*

Social Science Information is an international, cross-disciplinary forum for the analysis and debate of trends and approaches in social science research and teaching. In addition to presenting studies in new areas, the major focus is on theoretical issues, on methodology and research techniques as well as on cross-cultural comparison. Topic-oriented colloquia and symposia are run occasionally.

The following specialized sections appear most frequently:

- Rationality and society
- Sociology of science
- Anthropology of food
- Biology and social life
- Human societies and ecosystems
- Man and his environment
- Theory and methods
- Comparative research

It is a bi-lingual journal, published in English and French, for people in the broadest range of the social sciences — including anthropology, sociology, psychology, political science and economics.

Social Science Information is published quarterly in March, June, September and December

Subscription Rates, 1987 (Volume 26, Numbers 1-4)

	<i>Institutional</i>	<i>Individual</i>
<i>one year</i>	£75.00	£35.00
<i>two years</i>	£149.00	£70.00
<i>single copies</i>	£19.00	£9.50
