

Announcements

We send congratulations to two important organizations that have made significant contributions to the efforts to increase understanding between religion, theology and the sciences. Both organizations noted anniversaries during the first week in April 1992.

The British Science and Religion Forum celebrated its twentieth anniversary, while the Center for Theology and the Natural Sciences (Berkeley, California) marked its tenth. For both, the anniversary ceremonies included extensive symposia.

Zygon salutes the colleagues in both of these groups.
