

Erratum

The December, 1995, issue of *Zygon* included, over the name of John Leslie, a review of *Theism, Atheism, and Big Bang Cosmology* by William Lane Craig and Quentin Smith. The review was in fact written by Robert Deltete; it expresses his viewpoints and does not necessarily express the opinions of John Leslie. In this issue of *Zygon*, we are publishing Leslie's review of the same book.

Lastly, in the "Index to Volumes 21-30, 1986-1995" in the December, 1995, issue of *Zygon*, on page 672, s.v. "Leslie, John," and on p. 687, s.v. "Craig, William Lane," this review is attributed to the wrong author. Readers may wish to correct these index entries.
