

CORRIGENDUM

THE ROAD IS MADE BY WALKING: AN INTRODUCTION

In Bennett and Teske (2017), the number of years in the sentence appearing on page 772, “This takes the reader back 90,000 years to analyze the essential features of moral thinking and behavior, providing interesting evidence and suggesting intriguing hypotheses along the way” has been published incorrectly.

It should have read as:

This takes the reader back 900,000 years to analyze the essential features of moral thinking and behavior, providing interesting evidence and suggesting intriguing hypotheses along the way.

We apologize for the error.
